

"The Lee Project"

Lee has undertaken a new type of work experience contract. After meetings with Annie, Elizabeth and with the WRL staff Lee agreed to do five different short work experience tasks per week. As a reward for completing all tasks and writing up his diary he chose to go out on a Friday lunchtime and have lunch with his TA.

The tasks are Car Washing, Emptying Recycling Bins, supporting St Christopher's class as a TA, preparing the canteen area for lunch and being the Internal Postman each Friday.

Lee did exceptionally well in his first week and achieved all his goals. On his first day Lee collected his overalls and car washing kit from the WRL office and washed Caroline's car until it was gleaming.

Lee quickly understood the expectations of his role in the dining room and achieved his task quickly. Alison, our catering manager, told us, "Lee was amazing, polite and helpful. I am really glad he is working with our team."

Lee was introduced to his tasks of taking internal mail to and from St Peter's cottage on Friday. Kirstie in the office told us, "Lee made an enthusiastic start to his role as a postman."

St Christopher's staff were really impressed with the way that Lee interacted with the pupils and Lorena said he was so good, "You can come any day!"

Lee has told us that doing work experience on a Monday is quite difficult for him to do, so he has agreed to double up on another day so that he still achieves his goal.
